

## Product Features

- Capacity up to 4TB
- PXI Express form factor
- Onboard PCI Express SATA controller
- Compatible with major operating systems
- SSD option available
- Requires only 1 open slot (4HP)
- Software RAID capable
- Combine multiple units for additional storage capacity

## Specifications

Maximum Capacity	4 TB (single 2.5" SSD)
Maximum Data Rate	Estimated 240 MB/s
Internal Drive Interfaces	1 SATA
Drive Type	2.5" Solid State Drive
Dimensions	6.1875" (D) x 0.787" (W) x 5.0" (H)
Weight (with drive)	1 lb
SATA Controller	Marvell
Power	5W
Chassis Slots	PXle, 1 Slot Required (4HP)

## *Cost-Effective Storage*

---

The Big River™ DM-125-3U PXI Express Storage Unit provides disk storage resources to PCI Express based systems. By providing an internal enclosure for disk storage, the DM-125-3U allows high speed storage applications to be designed around a standard PXIe chassis.

The single slot design of the DM-125 increases the availability of valuable chassis slots when compared to other solutions and allows for maximum storage flexibility. With capacities of up to 4 TB SSD storage in a single unit and a competitive price point, the DM-125 can provide an economical solution to PXIe disk storage obstacles while also supplying ample performance.

## *Warranty*

---

Conduant hardware products are backed by a limited one-year warranty. All software includes a 90 day warranty. Maintenance and priority support are available on a yearly subscription basis. Please [contact your Conduant sales representative](#) for more details.

## *Customer Support*

---

Customer support is provided through a comprehensive web portal at [www.conduant.com/support](http://www.conduant.com/support). Private logins and trouble ticket management are provided along with technical downloads, knowledge base, and other support tools.

## *Ordering Information*

---

Several DM-125 Storage Unit configurations are available upon request. Please [contact your Conduant sales representative](#) for more details.
